Market Time

The average Days On Market (DOM) shows how many days the average Property is on the market before it sells. An upward trend in DOM tends to indicate a move towards more of a Buyer's market, a downward trend a move towards more of a Seller's market. The DOM for July was 27, down 6.9% from 29 days last month and down 43.8% from 48 days in July of last year. The July 2010 DOM was at its lowest level compared with July of 2009 and 2008.

Days On Market for Sold Properties

Selling Price per Square Foot

The Selling Price per Square Foot is a great indicator for the direction of Property values. Since Median Sales Price and Average Sales price can be impacted by the 'mix' of high or low end Properties in the market, the selling price per square foot is a more normalized indicator on the direction of Property values. The July 2010 Selling Price per Square Foot of \$276 was down 12.0% from \$314 last month and down 8.9% from 303 in July of last year.

Selling Price per Square Foot

Selling Price vs Original Listing Price

The Selling Price vs Original Listing Price reveals the average amount that Sellers are agreeing to come down from their original list price. The lower the ratio is below 100% the more of a Buyer's market exists, a ratio at or above 100% indicates more of a Seller's market. The July 2010 Selling Price vs Original List Price of 97.6% was down from 98.2% last month and up from 97.3% in July of last year.

Selling Price versus Listing Price Ratio

Inventory / New Listings / Sales

This last view of the market combines monthly inventory of Properties for sale along with New Listings and Sales. The graph shows the basic annual seasonality of the market as well as the relationship between these items. The number of New Listings in July 2010 was 39, down 23.5% from 51 last month and down 22.0% from 50 in July of last year.
