Selling Price per Square Foot

The Selling Price per Square Foot is a great indicator for the direction of Property values. Since Median Sales Price and Average Sales price can be impacted by the 'mix' of high or low end Properties in the market, the selling price per square foot is a more normalized indicator on the direction of Property values. The July 2010 Selling Price per Square Foot of \$133 was down 6.7% from \$143 last month and down 7.6% from 144 in July of last year.

Selling Price vs Original Listing Price

The Selling Price vs Original Listing Price reveals the average amount that Sellers are agreeing to come down from their original list price.
